LOOPY CARDS

INSTRUCTIONS

1. Students can play Loopy either individually, in pairs or in small groups.
2. There are 15 cards in total, including one start card (**Tīmata**) and one finish card (**Mutunga**).
3. First, shuffle cards and deal out to students.
4. The player with the start card reads out the **Google Search Question** at the bottom of the start card and lays the card face up on the table.

LOOPY CARDS

INSTRUCTIONS

5. The other players search for **Google Search Answer** at the top of the card/s they have been dealt.
6. The first player to call out the **correct** answer (provided they have the card with that on it) is the next caller. They then read out the **Google Search Question** at the bottom of that card and lay their card on the table, linking it to the first card (like dominoes).
7. Play continues as per instructions **5 and 6** until all players have finished using their cards.

TĪMATA

These are at the top of every search. Usually you'll see Web, Image, News, and More. Using these, will help define what kind of search you need to do.

It will search for that exact phrase contained within them. This can help locate specific information that may be buried under other non-related content if not sorted out correctly.

What do you use the tabs for in a Google search?

What do you use the quotes for in a Google search?

What do you use the hyphen for in a Google search?

AKO PANUKU
Inspiring Learning

AKO PANUKU
Inspiring Learning

Use this before a term, to tell the engine to ignore any content with this term. It is helpful to exclude information.

This will refine the search to bring you fewer, more targeted results. E.g. 1st try: job interviews, 2nd try: prepare for job interviews, 3rd try: how to prepare for a job interview.

Use this to search specific sites to find specific content on a particular site e.g. **Apirana Ngata site:teara.govt.nz**

What happens when you use the technique of gradually adding search terms?

What do you use the colon for in a Google search?

What do you use the asterisk for in a Google search?
